Kelvin, you were excellent today. Today we learned lots of new words and sentence structures in today's lesson. Your comprehension and understanding of the words were excellent. It was pleasing to note the fluency in your speech. You showed that you have also started to use critical thinking correctly, this is where you analyze everything you are reading for understanding to give a thoughtful response to the author's text or writing, in general, I appreciated your effort in the class using the new words in full sentences. Well done a wonderful lesson.

Wow Kelvin! How good was that! Your reading, comprehension and fluency are all amazing! Remember to carry on using the vocabulary from the lesson - capsized, crack, damage, lava and hemisphere - so that your lovely English can get even better! Keep up the brilliant effort you are making Kelvin and thank you for giving me a score out of 10. Well done Kelvin and see you next time!

Kelvin did an outstanding job participating during the lesson and his pronunciation and comprehension are also outstanding. He was able to talk about small talk and different ways we can start a conversation. He was also able to practice starting a conversation with his classmates. He could continue to work a bit on using more complex sentences. Fantastic effort Kelvin!

Hello Kelvin. Great to see you today in class. You were able to converse and speak from your opinion and experience regarding London Eye. Well done. Teacher gave all the stars. Teacher guided the lesson, correcting grammar, pronunciation and vocabulary. Teacher asked questions for speaking opportunity. Great work engaging with the questions and answering them using your opinion. This is a great way to enhance real life use of English. Keep up the good work. You will continue to improve by speaking with your foreign English teachers. See you next time in the classroom. Cheers.

Today's lesson was about our solar system. We learned about the sun and some of the planets in our solar system. We also practiced speaking with new vocabulary such as "burning", "cover", "middle", "planet", "rocky", and "volcano". Kelvin understood the lesson well and demonstrated it by answering comprehension questions correctly. Thank you for being attentive and excited to learn English. For more English practice, please watch movies, listen to podcasts, and read books. I look forward to meeting you in the next class soon, Kelvin.

After learning English on the TutorABC online platform, I believe that my English speaking ability has gotten a significant. And now, I'd like to share some of my opinions and reviews on TutorABC classes.

First, TutorABC provides students with happiness. You won't have stress talking in online classes; instead, you'll be quite exciting about it. For me, I'm always expecting the coming of Tuesday morning because I clearly understand that me and my instructor can talk about whatever we like such as science, technology, astronomy, or else.

Second, TutorABC allows students to speak English out loud. We all understand that "speaking" is a necessary part in learning English, but how do we practice English in regular classes? Not even possible. Nevertheless, in TutorABC classes, students are allowed to talk as much as they want. For example, if you interrupt the instructor by mistake, that's OK because the instructor will stop for you and let you express your idea in English.

General speaking, TutorABC is such a great platform that allow us to speak out loud and learn English happily, which are both important keys to learn a language.
